

STRATEGIC SECURITY ASSESSMENT

UNCOVER PEOPLE, PROCESS, FACILITIES AND TECHNICAL ARCHITECTURE VULNERABILITIES WITH MORE RIGOR

How can you improve your security posture if you don't know where you currently stand?

Your journey ought to begin with a comprehensive analysis of every aspect of your business as it relates to security. From hiring practices to physical and network security, a strategic security assessment provides the critical insight you need to bulk up your security program and show no weakness.

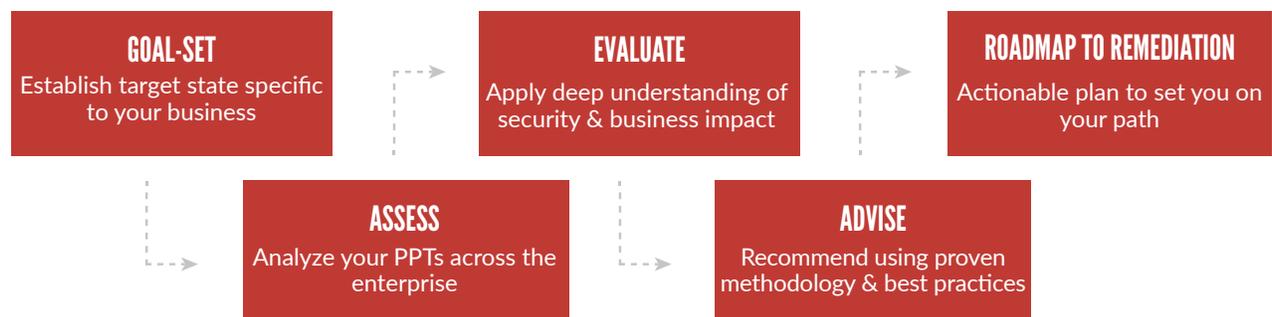

Avertium helps to set you on the right path.

An assessment from Avertium empowers you to establish where you are and navigate obstacles to develop the most effective strategy possible for your organization.

COMPREHENSIVE ASSESSMENT

Our comprehensive assessment includes a high-level review of these business areas:

- Access Control
- User Account Control Management
- Network Security
- IS Governance and Risk Management
- Cryptography
- Security Architecture and Design
- Operations Security
- Business Continuity and DR Plans
- Vendor Management
- Physical (Environmental) Security
- Boundary Defense

“ [AVERTIUM] CAN CONSULT FROM TOP TO BOTTOM. THEY CAN DO A GOOD JOB OF ASSESSING IN EXTREME DETAIL, BUT THEY CAN ALSO SIT AT A BOARD TABLE AND HELP ARTICULATE WHAT RISKS ARE ASSOCIATED WITH MAJOR ACQUISITIONS. ”

THE AVERTIUM ADVANTAGE

MORE RIGOR - Highly certified professionals who make it their business to know your business

MORE RELEVANCE - Experience from across all industries, environments and use cases relative to regulatory compliance and risk tolerance

MORE RESPONSIVENESS - Customized report and remediation roadmap that convey what you need to do and why you need to do it to advance your program

ANCILLARY SERVICES

Your assessment is only the beginning. Avertium continues to walk alongside you with a spectrum of related services:

- Policy and Procedure Development
- Compliance Consulting (HIPAA, HITRUST, PCI, SOC 2, NIST, etc.)
- 24x7x365 Security Events Monitoring
- Security Awareness Training
- Penetration Testing
- Planning Services
 - Disaster Recovery
 - Business Continuity
 - Incident Response
- Sensitive Data Scanning
- Staff Augmentation

ABOUT AVERTIUM

Avertium, one of the largest cybersecurity services providers to the mid-to-enterprise market, is redefining the landscape with its distinctive show-no-weakness approach. Forged out of three award-winning cybersecurity services companies, each with a unique perspective on the security landscape, Avertium brings enterprise-level security to the many mid-sized and larger organizations that don't have access to comprehensive, specialized protection. More than 1,200 organizations in industries ranging from financial services and manufacturing, to technology and healthcare benefit from Avertium's managed security, consulting and compliance services delivered with more rigor, more relevance, and more responsiveness. The company's dual security operations centers are located in Arizona and Tennessee. Avertium. Show No Weakness.™
